

**October 22, 2003**  
**INDIANA**  
**2002 ANNUAL JAIL REPORT**  
**“SNAPSHOT”**

The Indiana Department of Correction is tasked by law to inspect each county jail at least once annually (IC 11-12-4). The attached report reflects data collected on the day of inspection of each county jail in Indiana in 2002.

Column	Description
A	County Number
B	County Name
C	County population in thousands based on the 2000 Census
D	Year jail was built, renovated, or added onto
E	Rated bed capacity. For the most part this reflects the total number of beds in general population. This number will be revised during 2003 inspections to reflect all beds.
F	Beds per thousand population
G	Inmates per thousand population
H	Percentage of beds occupied
I	Total number of inmates reported
J	Number of beds unoccupied/available
K	Adult males reported
L	Adult females reported
M	Males still under age 18 incarcerated as adults on the day of inspection
N	Females still under the age of 18 incarcerated as adults on the day of inspection
O	Inmates sentenced to serve county time
P	Inmates sentenced to a work release program operated by the jail (included in the numbers reported in Column O as well)
Q	Number of inmates sentenced to the Indiana Dept of Correction (IDOC) being held at the county jail
R	This column indicates if the jail has agreed to hold inmates for IDOC
S	Number of inmates reported to have escaped or walked away (e.g., from work release). This number reflects total number of inmates, not incidences, e.g., once incident may have involved more than one inmate.
T	Number of jails reporting a GED program is available to inmates at the jail
U	Indicates jails reporting some form of substance abuse prevention program is available at the jail or transported out to services as court ordered.

V	Indicates jails reporting they have made arrangements with their local school corporation for the provision of special education services at the jail.
W	Indicates if a jail permits inmates to smoke
X	Percentage estimate of time the jail was reported to be over its rated capacity since the previous jail inspection
Y	Indicates if a jail is operating under a population cap.
Z	Indicates if a jail has agreed to hold federal inmates for the US Marshal's Service
(aa)	General remarks about the status of the jail

Important Note: In custody deaths are not longer being reported on the annual jail report. This data is now reported to the US Census Bureau, and then consolidated by the Dept of Justice. The Dept of Justice has not released statewide data for 2002 as of the date of this report.

Statewide totals and averages may be found at the conclusion of this report.

Again, it is important to note this report merely represents a "snapshot" of county jails in Indiana on the day of inspection.

Please refer any questions concerning this report to the undersigned.
